

The drawing is a technical plot plan for a building. The building's footprint is represented by a yellow hatched area. The plot is bounded by a red dashed line. The drawing includes various dimensions and labels, such as '10631' and '10621' for the building's width and depth, and '6223' for the plot's width. The drawing is oriented with the building's long side horizontal.

The drawing is a technical plot plan for a building. The building's footprint is represented by a green hatched area. The plot is bounded by a red dashed line. The drawing includes various dimensions and labels, such as '10631' and '10621', indicating specific measurements and areas. The drawing is oriented horizontally, with the building's long side facing left.
